Government stocks continue to advance, and the amount

of business continues large. For old 5-20s 14 advance was

paid, for the new 4, for the 10-40s 1, and for 7-30s 162 per

cent. The indications are that a good proportion of the money now loaned temporarily to ithe Treasury will go

into funded debt and not into railway shares. State bonds are better. Virginia 6s rose 2, and new Tennessee 6s 2.

Railway mortgages are also firm. Bank shares steady.

The miscellaneous shares are lower. Mariposa Preferred fell 12, and Western Union 2. Lehigh and Susque-banna steady. Water Power fell 12. Pacific Mail sold up to

227. The Railway Share market is lower, and new buyers scarce and wanted. During the last ten days the market has been galvanized by bulls operating

upon the smallest possible margins, who have spared no pains in talking of the expansion sure to be

produced by paying the temporary Treasury loan on the 27th inst. The result is that all the bull operators

have as large loads as they can carry woon 4 and 5 per cent call loans, and are looking for still more credulous people to relieve them. As there are few short contracts

to be covered, the market is in a condition where a severe

break down may be seen at any moment, as the inventment demand for shares is reduced to a nominal amount.

After the call the market was dull, except for Govern-

ments, which maintained the full quotations of the meraing, and Rock Island, which sold at 109. Near the close

Government stocks, after the publication of the dis-

patches from Europe, were in demand, and old 5-20s were

The great popularity of the 5-30 bonds at home and

abroad should cause the Secretary of the Treasury to take

immediate and efficient steps to secure the conversion of

all the issues of 7.30s into this class of bonds. There should be no restriction as to the issue to be converted

and the best interests of the department would be served by giving holders of 7.30s the one-eighth commission for

the exchange allowed by law. The lower 7.30s outstand-

The Checago Tribune of Tuursiay says:

The market for Exchange, though flat, was not so "simmer as on yesforday, and there was a less amonot offering. The money market to-day presents sourcely any new features. This country bankers are checking feedy on their balances here, and from all parks of the interior the demand for currency to more the crops is unabated, and if anything is increasing. There was less demand in the way of mercantie locus, but the market was none the less easier on this account. The banks are acting on the "conservativa" in order to meet the drafte that will be made upon them from the country within the next 30 days, and closely sociatizes all paper offered for discount. Nothing but what will pass as "first-class" is taken, and for such the market is comparatively easy at 10 per cent. Sad Accident.

The Cincennate Gazetic of Thursday says:

Toars is no change to the money market. The currency balances constitute to run down, and bankers are much restricted in their discount means; consequently, over the best paper is not passed without difficulty. The rule of interest between the bankers and their consistings remains at 8 it of court but good names are obtainable at 17 \$\psi\$ coat. A fair quotation for money on the case market on good 60 days paper would be 100 it \$\psi\$ oost. The conducty banks are still cathing for currency and selling exchange. Bankers buy at 1-10e, \$\psi\$ to, discount and sell at par, but they are more first to sell at the latter than to buy at 1-10 discount. Gold advanced to 150 buying and 140 selling, but the market was not stong. Mr. W. A. Beach, jr., son of Mr. W. A.
